KANE COUNTY
DIVISION OF TRANSPORTATION

Checklist for Wireless Telecommunication Facilities Permit Application

All applications:

- A site specific structural integrity analysis prepared by a professional structural engineer licensed in the State of Illinois.
- An exhibit showing the location where each proposed wireless telecommunication facility would be installed.
- A line-of-sight analysis to ensure that wireless telecommunications equipment, either pole or ground mounted, does not obscure or obstruct the safe visibility of/by motorists, bicyclists or pedestrians.
- Photographs, taken within six (6) months of the submittal of the application, of the location and its immediate surroundings depicting the land uses and structure(s) on which each proposed wireless telecommunication facility would be mounted.
- Specifications and drawings prepared by a structural engineer for each proposed wireless telecommunication facility covered by the application as it is proposed to be installed, with height and offset dimensions shown as well as volumetrics (cubic feet) of each of the wireless telecommunication facility components.
- A proposed schedule for the installation and completion of each wireless telecommunication facility covered by the application.
- Certification that the proposed collocation complies with the *Kane County Wireless Telecommunication Facilities Ordinance (18-282)*, frequency interference requirements in section D. (4).
- Legally competent evidence of the consent of the owner of the structure that a collocation is proposed upon (for installation on non-County owned infrastructure).
- Application Fee per the fee schedule provided in the Ordinance.
- Engineer's estimate of cost of all required work including restoration.
- Certificates of Insurance from: Developer, Contractor, and all Sub-Contractors.

If co-located on County owned infrastructure, also include:

- An executed Pole Attachment Agreement (prior to permit issuance).
- A Make Ready Analysis prepared by a professional structural engineer.
