Press Release

Fabyan Parkway over the Fox River Bridge Improvement Kane County Section No. 17-00479-00-BR

Traffic will be reduced to only one lane on the Fabyan Bridge with flaggers controlling vehicle flow starting at 5:30 am until 4:00 pm on Wednesday August 28, 2019 or Thursday the 29th, weather permitting, to allow crews room to pour the new wearing surface on the bridge. Motorists are strongly advised to seek alternate routes during this work. This work is part of the rehabilitation work that has been ongoing since June with other work consisting of light pole cleaning and painting, and bridge structural repair and maintenance. This project is being constructed in multiple stages with an anticipated completion date of December 2019, weather permitting. Subsequent stages in the coming weeks will also include additional staging of Fabyan Parkway to one lane of traffic in each direction until project completion. Motorists are to be cautious and be alert for new lane configurations as well as equipment on the bridge and workers walking within the work zone.

As this portion of Fabyan Parkway can experience very heavy traffic, much longer than normal traffic delays are expected during this portion of the construction. Motorists should expect delays while traveling through the work areas and add additional time to their commutes. Motorists are asked to reduce their speed, watch for construction workers and vehicles entering or leaving the site, obey flaggers and comply with traffic control devices within the work zone. **Motorists may want to consider the use of alternate routes while this work is being completed. A reminder – it is illegal for drivers to talk on a cell phone while driving through a highway construction work zone.**

Questions and concerns regarding this work may be directed to KDOT PM, David Boesch at (630) 584-1170 or boeschdavid@co.kane.il.us.

For all Kane County Traffic Advisories, see <http://www.co.kane.il.us/dot/trafficalerts/Default.aspx>.

Work Zone Safety Alert

Drivers in this project area should be prepared to reduce their speed, exercise caution, watch for construction workers and construction vehicles entering or leaving the site, and obey flaggers and other traffic control devices within the work zone. Drivers should expect delays and may want to add additional time to their commutes and consider the use of alternate routes while this work is completed. KDOT reminds drivers that is illegal to talk on a cell phone or text while driving through a highway construction work zone. The minimum penalty for speeding in a work zone is \$375.
