August 4 2009

### PRESS RELEASE

On August 3, 2009, a section of the Fox River Trail was closed. The section closed is located between the Jon J. Duerr Forest Preserve and County Park in South Elgin. This temporary closure is needed to allow for the construction of new highway bridge and bike path bridges over the Fox River. The new bridges are part of the Stearns Road Corridor Project. The closure is anticipated to remain until December 2010.

More information concerning the Stearns Project may be found at the project website at [www.stearnsroad.com](http://www.stearnsroad.com). Questions concerning this temporary closure may be directed to Kane County's Construction Corridor Project Manager, Mr. Kevin Ahern at [kahern@benesch.com](mailto:kahern@benesch.com).
