### **PRESS RELEASE**

2011 Kane County Annual Maintenance  
Asphalt Resurfacing  
Kane County Section No. 11-00414-00-RS

Road work necessary to implement Kane County's 2011 Resurfacing Program is scheduled to begin the week of June 20, 2011 on the roads listed in the following table. We anticipate completing these roads by July 25<sup>th</sup>, weather permitting.

<b>County Highway</b>	<b>From</b>	<b>To</b>
Main Street	Dauberman Road	West County Line Road
Silver Glen Road	IL Route 47	Corron Road

The resurfacing process typically includes:

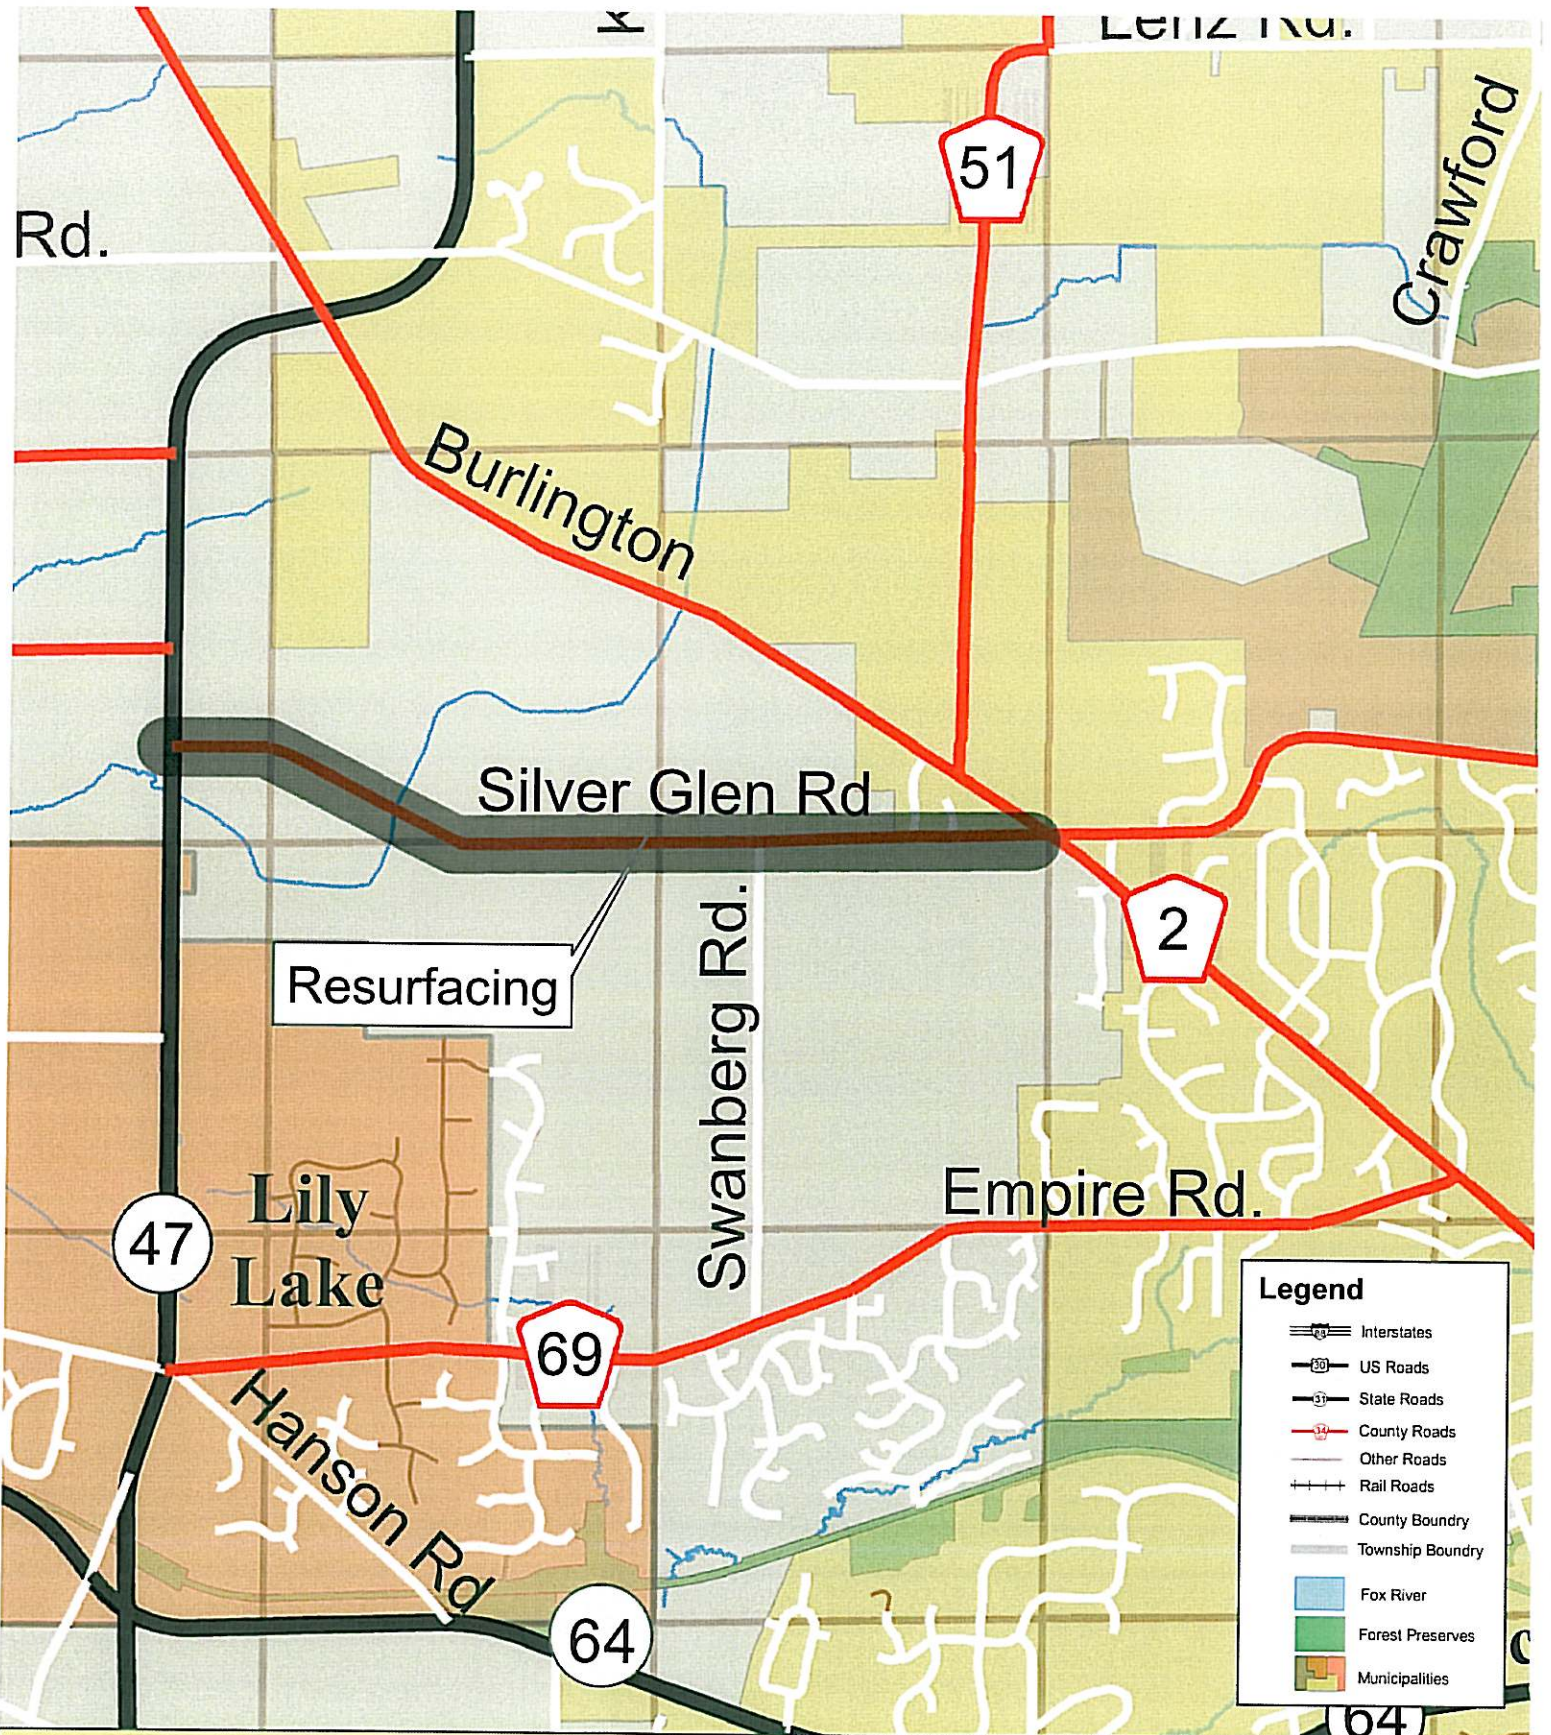

- Grinding & removal of 1 ½" of the top wearing surfacing of pavement;
- Placement of a fresh oil application over the grinded pavement;
- Placement of 2 ¼" of an asphalt layer over the oil application to provide a new smooth riding surface.

A map showing County highways included in the 2011 Resurfacing Program is available at: <http://www.co.kane.il.us/DOT/constProjects.aspx>. Click on "2011 Construction Projects" and then on "2011 Resurfacing Map".

Daily lane closures from Monday through Saturday will be required to accomplish this work. Please watch out for flaggers and anticipate increased travel times while traveling through these construction areas. The public is advised to seek alternate routes, especially after placement of the fresh oil application.

Questions or concerns may be directed to Bryan Schramer at (630) 762-2744 or John Guddendorf at (630) 816-9671.
